## OMUTOMA TREES

*Plantations*

*Restoring Bark cloth  
production to the people of  
Tooro*

# ABOUT

## ELGEYO MARAKWET ORGANIC FARM

## WHO WE ARE

*The Marakwet Organic Farm is a 150-acre property situated on the Rift Valley escarpment overlooking the Semliki Valley. The topography of the land mainly consists of gentle rolling hills and valleys in keeping with the area. On a clear day, Lake Albert and the rainforests of eastern Congo beyond can be seen.*

*Just 20 miles north of Fort Portal where the founder was born, the farm marks a full circle as she returns to her roots. The farm is in its infancy at the moment but there are big plans to see it develop into a major employer in the area, giving local people an opportunity to gain steady employment and income which will in turn have a direct effect on the community.*

# Know More

## WHY

*Just 20 miles north of Fort Portal where the founder was born, the farm marks a full circle as she returns to her roots. The farm is in its infancy at the moment but there are big plans to see it develop into a major employer in the area, giving local people an opportunity to gain steady employment and income which will in turn have a direct effect on the community*

## MISSION

*To employ men and women from the surrounding communities, improving livelihoods and enhancing prospects through skills transfer and training.*

*To preserve cultural heritage and providing livelihoods to the rural community.*
